SUBJECT: Beck Street Quarry. M0110003  
Project No. 06-7125

Dear Mr. Kunzler:

The Resource Development Coordinating Committee (RDCC) has reviewed this proposal. The Department of Environmental Quality/Division of Air Quality comments:

The proposed mining reclamation project in Davis County, is subject to Utah Air Quality Rule R307-205-7, Mining Activities, since fugitive dust emissions will be generated during mining activities. A permit, known as an Approval Order, is not required solely for the control of fugitive dust, but steps need to be taken to minimize fugitive dust, such as watering and/or chemical stabilization, providing vegetative or synthetic cover or windbreaks. If any on-site crushing of stone occurs with this project, then a permit application, known as a Notice of Intent, should be submitted to the Executive Secretary at the Utah Division of Air Quality at 150 North, 1950 West, Salt Lake City, Utah, 84116, according to Utah Air Quality Rule R307-401, Permits, Notice of Intent and Approval Order. A copy of the rules may be found at:

[www.rules.utah.gov/publicat/code/r307/r307.htm](http://www.rules.utah.gov/publicat/code/r307/r307.htm)

The Committee appreciates the opportunity to review this proposal. Please direct any other written questions regarding this correspondence to the Resource Development Coordinating Committee at the above address or call Carolyn Wright at (801) 537-9230 or Jonathan G. Jemming at (801) 537-9023.

Sincerely,

  
John Harja  
Director
